

Prestigio RoadRunner RR300 Update Guide

All user settings would be reset to default and should be set manually after update

1. Copy the "RR300_20120928_V1.9 06-01.bin" file to the SD card
2. Plug in the SD card into the device
3. Turn on the device
4. Green light will flash slowly during update
5. Device will restart after update finished
6. Remove the "RR300_20120928_V1.9 06-01.bin" file from SD card after update procedure finished
