

Prestigio RoadRunner RR300 Update Guide

All user settings would be reset to default and should be set manually after update

1. Copy the “gp_cardvr_upgrade.bin” file to the SD card
2. Plug in the SD card into the device
3. Turn on the device, the update procedure starts automatically
4. Remove the SD card and restart the device after update finished
5. Remove the “gp_cardvr_upgrade.bin” file from SD card before using it
