

Prestigio RoadRunner RR540 Update Guide

All user settings would be reset to default and should be set manually after update

1. Copy the "SD_CarDV.bin" file to the SD card
2. Plug in the SD card into the device when it switched off
3. Power on the device by car charger, the updating procedure starts automatically
4. The device is switching off after the updating procedure will be finished
5. Remove the "SD_CarDV.bin" file from SD card before using it
