

Prestigio DVR RR HD1 Firmware Update Guide

1. Copy two "*.bin" files to the root directory of a formatted SD card
2. Insert SD card into the device when it switched off
3. Press and hold "MENU" button, then switch the device on
4. Update process will start automatically
5. System messages "FW UPDATE OK.." and "UI DATA UPDATE OK.." will appear after updating process finished
6. Delete "*.bin" files from the SD card after the updating process will be completed
