## Getting Started

### Hardware Installation:

- Insert USB connector into corresponding USB port.
- Device will be automatically installed and ready to use after system reset.

### Software Installation:

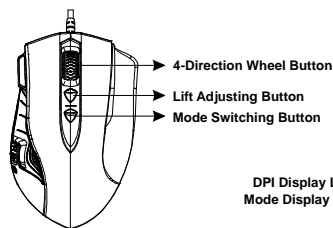

- Insert Driver and Documentation CD into CD-ROM.
- Select desired language and click on **OK** to continue or **Cancel** to exit installation.
- Check/uncheck on the options and click on **Next** to continue or **Cancel** to exit installation.
- Click on **Browse** to select or type in desired installation path. Click on **Install** to continue, **Back** to previous page or **Cancel** to exit installation.
- After installation is completed, press **Close** to finish.

### NOTE:

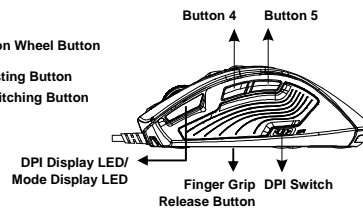

Some of the features such as tilting wheel button may not function properly without driver installed.

## Basic Operation

### Top View

### Side View

Prestigio Gaming Mouse

EN - 1

- Shift **DPI Switch** up/down to change DPI resolution between 450, 900, 1800, and 3600. Current DPI resolution is indicated by **DPI Display LED**
- Roll/tilt **4-Direction Wheel Button** to scroll up/down and left/right.
- Press and hold **Lift Adjusting Button** and quickly move device on surface until **DPI Display LED** stops blinking to fix distance to sensor to surface.
- Press **Mode Switching Button** to toggle between 5 user modes indicated by **Mode Display LED**. Each mode contains 10 different programmable buttons assigned using gaming software.
- **Button 4** and **Button 5** are Internet forward and backward button by factory default setting.
- Press **Finger Grip Release Button** to release and switch finger grips.
- Press **Finger Grip Release Button** and press **Weight Cartridge Release Button** to release weight cartridge. Add/remove weights on weight cartridge to adjust device weight.

**NOTE:**

Please refer to full user manual included in Driver and Documentation CD for operations on Gaming Software.

### **Technical Support and Warranty Information**
