Getting Started

1. Pull off the tab at the end of **Remote Control** to enable the unit.
2. Insert **USB cable** into device **USB Port** and insert the other end to PC, notebook, or USB power adapter.
3. Insert **Audio/Video Cable** or **S-Video Cable** into device **Audio/Video Line Port** or **S-Video Port**. Connect the other end to appropriate devices.
4. Select an appropriate **Docking Adapter** and firmly install it onto **Docking Well**.
5. Gently insert iPod™ onto **Docking Well**. The device is now ready for use.

Basic Functions

Powering On

Simply insert iPod™ onto **Docking Well** to power on device. The power LED will light up in red indicating successful authentication.

Synchronization

Press down Sync & Charge Button to allow iPod™ to perform synchronization with PC or notebook. Release the button to resume charging only function. Please refer to iPod™ user manual from more information on synchronization function.

Video/Music Playback

- Press ▲/▼ to select items and **Select** to confirm.
- Press ▶|| to start video/music playback.
- Press ◀◀/▶▶ to rewind/fast forward.
- Press -/+ to turn down/up volume.
- Press **Menu** to return to previous page

NOTE:

S-Video function only transmits video signal. Additional audio cable is required for sound output.

3D Sound Effect

Press Ⓜ to enable 3D sound effect.
